## CAMPUS COVID-19 UPDATE

March 17, 2021

**TO:** All Current Students  
**FROM:** Scott Freund, Executive Vice President  
**RE:** The Addition of In-Person Classes

We could not have imagined a year ago, that our lives would be so significantly changed by the COVID-19 pandemic. Today, we are still not back to normal; however, we see light at the end of the tunnel.

While complying with the State of Rhode Island's COVID-19 requirements and guidelines, NEIT has been able to add more in-person classes on campus over the past few terms, and we plan to add more with each upcoming term. Therefore, for the spring term, most of you will find that more of the courses in your program will meet in-person. As more people become vaccinated, and the COVID-19 positivity rate drops, we hope to return to all in-person classes on campus in the fall term (classes that were in-person before the pandemic started). Certainly, if the course of the pandemic changes for the worse, NEIT will have to adjust accordingly. So, please continue to do your part. Wear a mask, stay 6' from other people, wash your hands properly and follow other CDC public health guidelines. Let's all stay safe!

If you haven't done so already, register now for the spring term (begins on March 29, 2021 and ends on June 5, 2021). The spring classes are posted on Web for Students on the Student Website. Contact your Student Advisor or Student Success Coach (master's and online programs) if you need assistance.

Stay on track to finish your degree! We wish you the best!
